Allowable Subject Matter

Claims 1, 3-16 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fail to disclose: a method of predicting search needs of a computerized database search user comprising the steps of: associating said initial search term to all topical categories related to said initial topical category thereby creating related categories and automatically retrieving said document information of all said documents assigned to said related categories as recited in claims 1 and 14.

The following is an examiner's statement of reasons for allowance: a method of predicting search needs of a computerized database search user comprising the steps of: associating said initial search term to all topical categories related to said initial topical category thereby creating related categories and automatically retrieving said document information of any said documents assigned to any said related categories, irrespective of a relevancy between said initial search term and any said related categories in claim 15.

The following is an examiner's statement of reasons for allowance: a method of predicting search needs of a computerized database search user comprising the steps of: associating said initial search term to all topical categories related to said initial topical category thereby creating related categories and automatically retrieving said document information of any said documents assigned to any said related categories, including said document
